

How Do We Safeguard Against Medical Identity Theft in an Increasingly Electronic Environment?

Invitation to Health Information Administrators, Professors, Students, Allied Health Professionals and Consumers

Symposium on Tuesday, April 13, 2010

MEC Lecture room 152 • 9:30am to 2:30pm • Registration required • Lunch Provided

Health Information Privacy Week promotes awareness of the critical need for healthcare professionals, institutions, and consumers to protect the privacy, confidentiality, and security of health information. As providers inch toward electronic record-keeping systems, we must remain vigilant in protecting consumer rights and monitoring evolving government regulations.

HIM Professionals receive 5 CEUs

\$10 registration donation supports
